

## LOCAL INTELLIGENCE.

**DAY COMPANY'S MINES.**—The mines owned by this company are all looking very fine, and, to say the least, the showing in them bids a bright future for the company. The Jackrabbit, or Day, is at present yielding some very rich ore, covered with horn-silver, and assays from \$300 to \$1,700. This ore is taken from the fourth level of the Day mine. The indications all tend to make the miners believe that the rich streak is leading to a chamber of rich ore and it is being sunk upon and will be followed to its termination. The 7th and 8th levels are in soft formation, with large bunches of ore through them. The ground on the lower levels is favorable of opening an ore chamber at any time. The Mendha, at Highland, has improved wonderfully of late. In the drift being run west, the ore grows in extent. The drift is in virgin soil, and the formation is in what might be called a lime sand. In this sand large boulders of ore are taken out. It seems to be a nest of ore-boulders. The miners have drifted into this boulder quite a distance. Great caution is taken in working in this ground and much timber is being used. Notwithstanding there has been work going on in this boulder ground for three weeks there has been no idea formed as to its extent. That remains to be solved. The ledge in the opposite part of the mine is yielding its allotted daily amount of ore for shipment to the furnace, but it is not so broad. The Hamburg, the companion of the Mendha at Highland, is developing well. Its ledge continues 12 feet in width, and carries its two feet of rich ore, strong. It is the general opinion of those who have visited these two mines at Highland, that the Hamburg will eventually prove much the better mine. The Day Company's mines are all in fine condition and it is to be hoped that they will always look as prosperous as they do at present.

**STAR DISTRICT.**—Mark S. Severance, agent for the Central Pacific Railroad Company, and W. J. Townshend, manager of the stage lines, came in from Utah on Wednesday. They brought with them some very handsome specimens from the Kimple mine, of old Star District, the property of A. J. Dupais. The mine is spoken highly of by these gentlemen. There is one narrow seam of two inches that goes into the thousands. At one place in the mine, where the ledge is two feet in width, the ore goes 188 ounces in silver and \$10 in gold, there is also another ledge in the mine, from 8 to 10 inches in width, that goes 234 ounces in silver and \$30.14 in gold.

**ALMOND TREES IN BLOOM.**—The almond trees are in bloom on John Kierman's ranch. The almond tree very much resembles the peach tree, but the blossoms are white instead of pink. Mr. Kierman expects to gather a large crop of almonds this year as the trees are loaded with blossoms. He says two years after the planting the almond tree will bear fruit. He has about fifty good healthy almond trees growing on his place.

**THERE WAS AN INCREASE IN OUR POPULATION** on the night of the 29th. Mrs. A. J. Blair gave birth to a little girl, weighing ten pounds. There is one great advantage in having children born on the 29th of February, for you need only present them with presents once in four years, and in hard times every little helps. The mother and child, and also the daddy, are getting along nicely.

**THE OWNERS OF THE MILL AT THE LOWER END OF TOWN** are shoving work ahead as rapidly as possible. The weather has retarded work greatly, but it is thought the mill will be in readiness to start up in a few days, and hereafter chlorides will be able to have their ore crushed at home.

**IS THE EMERGENCY FUND,** we see by the last issue of the "Irish World" that the following parties of El Dorado have contributed to the fund, Frank Murphy \$10, John Kennedy \$5, Patrick McCarthy \$5, James Cunningham \$10, John Craven \$10, J. J. Manning \$2.

**FORGOTTEN.**—Jim Stockdale has been found. His brother, A. S. Stockdale of Ashland, Alabama, writes C. H. Patchen that he heard from his brother Jim, who was then at Casa Grande, Arizona. Jim is now at Tucson.

**AND NOW LETTERS ARE BEGINNING TO ROLL IN** on us from abroad making enquiries as to the Day mine; even from far off Massachusetts letters of enquiry come.

**WITH THE EXCEPTION OF ALLOWING THE** bills presented there was very little business of importance before the Board of Commissioners on Monday.

**DIED.**—W. R. Wilson, who kept a news store here in former days, died at Santa Mateo, Cal., on the 10th of last month. He was born in Kentucky on July 11th 1841.

**THE SALE OF THE JAMISON AND FINLEY** properties, it will be seen by notice, were postponed from last Monday till today, at 12 o'clock M.

**TAX LEVY.**—At their meeting last Monday the Commissioners placed the tax levy for 1884, in the county, \$3.75; and in Pioche \$3.85.

**THE RANCHERS AT THE LOWER END OF** Meadow Valley Wash have planted their early potatoes.

**A LARGE SUPPLY OF THE CHOICEST BUTTER** at Pousade's.

## BULLIONVILLE AND PANACA DOTS.

The Panaca lane is covered with two feet of water.

Mace Dixon & Co. expect to start in concentrating again at the Condor mill soon.

The greatest body of water is now flowing down Meadow Valley Wash ever known.

Foank Godbe and wife will return to Bullionville as soon as the weather will permit.

Gilmer & Salisbury's agent, Mr. Townshend, paid us a flying visit on his way to Eureka.

Condor Canyon is flooded with eight feet of water. No news from the inhabitants of the Canyon.

The "Co." in Bullionville is endeavoring to explain matters satisfactorily to his better-half, but he can't do it.

Brother Atchison has about fifty tons of hay under water on the old "Big Ike" ranch, seven miles from Panaca.

Ed. Pierson went out in the meadow on Tuesday and returned with twelve ducks and one goose. He says he can do better shooting ducks than keeping store.

The mail rider from the Muddy reports water running the whole distance down Meadow Valley Wash to Kane Springs, a thing that has never been known before.

The sad news of Jack Ellison of Rose Valley being confined to his bed with love-sickness, has been brought to Panaca. The old woman who went there is indeed a masher.

Fred Godbe and Ed. Pierson are hard at work thinking about making boxes and tables for the purpose of concentrating tailings. It is feared that they will work themselves blind, poor boys.

We understand that the Company's store in Bullionville has been selling goods right along, and have not taken out a license. If this is the fact, it is wrong. The Co-Op of our village pays license.

Bro. and Sister Wedge are now happy. They have no more trouble with the boys, the Bishop having exercised his influence and making them attend church on the Lord's Day, and they are not allowed to enter the saloon. This is as it should be.

Circulars have been received in the village from Bro. Geo. Odel from Salt Lake, stating that he has formed a co-partnership with two of the Grant Bros. in the wagon and machinery business. They purchased the building and business of Mr. Madison, in that city. We wish Bro. Odel good luck.

Mr. Burton, formerly engineer of the Bullionville S. M. Company, writes brother Findlay that he expects to be back in Panaca inside of a couple of months, and that Mr. Hampton informed him that the company had purchased the whole of the Raymond & Ely tailing pit. The Bullionville Smelting Company also intend working their own tailings under a new process, as the experiment made with them in the East has proven a success.

The young ladies of our village, who had the good fortune to attend the school exhibition and dance in Pioche a week ago, returned delighted. They speak very highly of the affair. They tell that the Gentiles are not such wicked people as they supposed them to be, but that those girls do not know what they say. However, it is my idea that it would be beneficial to associate more than they do with the ungody. It would certainly do no harm. I wish that I had of went to the dance, for I know I would make a "mash," even if I had to place my foot on that horrible RECORD man and mashed him out of existence. I think that should be done.

**THANKS.**—We tender our thanks to the ladies and gentlemen of Pioche and the surrounding places for the generous manner in which they responded to our call for assistance, in aiding us in liquidating the small debt that had been incurred by the public schools. We are happy to state, that financially, the Ball and exhibition was a complete success, as we have been able to pay all indebtedness, and have a surplus of twenty dollars, with which we intend to buy presents as prizes for the scholars, to be given to them at the end of the school term.

Respectfully,  
JOHN GELBERT,  
S. H. CARMAN,  
JOHN INCE,  
Trustees.

A YOUNG lady, who was born and raised in the mountains, and who recently removed to Los Angeles, California, was there at the time General Hancock passed through that town. Having never seen a man of national renown, she, out of curiosity, went to get a peep at the General, and this is the description she gives of him: "He was sitting in the carriage, looking worn and tired out, and did nothing but chew filthy tobacco all the time."

We publish a letter from the Cour d'Alene mines, to a Portland, Oregon, paper, which we would advise all who contemplate going there in the spring to carefully read, then ponder.

We are having Oregon weather—rain and fog.

SWISS BOB'S CHOICEST BUTTER AT POUJADE'S.

POUJADE keeps the very best butter to be had.

The following dispatch from San Francisco, dated February 29th, shows that the California & Nevada railroad intend to build their line, notwithstanding statements made to the contrary. The dispatch says: Work has been commenced on the California & Nevada Railroad. Oakland wharf, 100 feet long, has been built out and is to be extended 5,000 feet to deep water, and on next Monday graders and tracklayers will be set to work. The road starts from Emery Station at Wall's, and the track crosses San Pablo and Telegraph Avenues in an easterly direction to the county; thence it will run to Modesto, in Stanislaus county, to a point near Sonora, in Tuolumne county; thence to the Calaveras Big Trees on to the State line. The wharf now being built will be 26 feet wide, and will allow for a double track and carriage way. Immense quantities of rails and ties and other material are daily arriving, and work is to be pushed forward with all possible dispatch. The capital stock of the company is \$6,250,000, a large portion of which has already been subscribed.

OUT OF LUCK.—H. Ward, who some years ago had a furniture store in Pioche, and subsequently in Bodie, met with quite a loss recently, at Hailey, in the Wood River country. A large building erected by him last summer, the upper part of which was used as a concert hall and the lower story as a store, was demolished a few days ago by the snow. His loss will aggregate several thousand dollars. Ward made a bushel of money at Bodie but left there with nothing, and had just got a start in Hailey when he is knocked out of time by the snow. His little son, an only child, is being cared for by Mrs. Fulmer, in Reno.

Mr. SEVERANCE, agent of the Central Pacific at Salt Lake, visited Pioche for the purpose of seeing whether he could make arrangements with our merchants for shipping their freight via Eureka, and have a line of freight teams running from that place to Pioche.

The valleys are flooded. The large quantity of water flowing down from the mountains has covered the bottom lands. As far as can be seen the water shows itself the entire length of the valley.

The individual who says this part of Nevada possesses a dry climate, certainly knows not what he says. We have had nothing but snow and rain for the last month.

CHAS. BELL, who has been residing in Lordsburg, New Mexico, by the advice of his doctor, has left that place and gone to the Arkansas Hot Springs.

The frog crop in the valleys should be an abundant one. Sufficient water has fallen for the little green-coated songsters to grow on cedar trees.

OWING to the lengthy sale of the Meadow Valley coming in at the eleventh hour we were compelled to cut reading matter short.

THE CHILIAN recently killed at Candelaria, was Vincente Algeto, the man who married Miss Deolinda Aguayo in Pioche about four years ago.

SHEEP SNOWED IN.—A flock of 2,500 sheep, owned by Joe Liddle, have been snowed in for some time out near Sidehill station.

JOE EISENMANN purchased a span of 20-year-old colts. He intends sending them out to his ranch in Pahranagat.

WHAT is the matter with our neighbor at Frisco? We have not received a copy of the "Times" for three weeks.

NOTWITHSTANDING the vast amount of rain that has fallen the past week, the mountains are filled with snow.

THIS is the right kind of weather for the planting of young ducks.

A TAX suit has been commenced against the American Flag mine.

THE roads in all directions are very heavy.

SWISS BOB'S CHOICEST BUTTER AT POUJADE'S.

The Nugget claim, situated at what was formerly known as the Chinese Garden at old Tuscarora on McCann street, about two and a half miles southwesterly from this town, says the Times-Review, has been prospected long and faithfully by George Redull and Wm. Ford, its owners, and their perseverance and industry have at last been crowned with success. Last week they commenced drifting on a blind ledge about 60 feet from the mouth of the tunnel, where they had advanced North more than ten feet the ledge had developed into an 18-inch vein of solid ore, assays from which yield at the rate of \$800 in gold and \$80 in silver. The present breast shows a ledge of fully the above dimensions and containing scarcely a particle of waste rock.

A fearful snowslide occurred at Silver Canyon, near Spring Valley, White Pine county, one day last week. The works of the mining company operating at that place, together with the company's store, boarding-house, office, and blacksmith shop, were swept away and buried by the overwhelming avalanche, and William Mickel, John Fox and Wallace McCrimmen were instantly killed and Lauck, O'Brien and another man, whose name was not given, were seriously injured.

The late snowfall throughout the mountain and foothill sections of Butte and Colusa Counties has been very severe on live stock, and cattle and sheep owners have suffered severely.

POUJADE keeps the very best butter to be had.

## MORE BOTTOM FACTS.

Notes from About the Edges of the Rim Rock.

(Portland (Oregon) Welcome.)

D'ALENE MINING DISTRICT, January 26, 1884.—In answer to our many friends we will answer through your columns, giving the facts in regard to the mines as they appear to us or any other men not interested in some whisky-mill, or some other traffic along the road, to catch the honest miners who have been lied to by the traders who fixed for them last Fall, and have been lying ever since to get a big crowd to come, so that they can make a few dollars off the travel, which they are doing in good shape. You will remember that a man by the name of Coy put a piece in the paper while stopping at the St. Charles Hotel, giving a flattering account of the mines, but the dirty cur did not mention that he was a trader and had a stock of goods at the mines which he expected to make money out of. When we landed at Rathdrum we happened to meet Coy there and he went on to tell us that he had got a big fortune in a ledge and that the placer mines were paying big, all of which is false. There is only one claim open, which is called the Widow's claim, and they take out from \$5 to \$15 a day while cleaning up the bedrock, but don't forget that it takes them four or five days to strip off what they can clean up in a day or less, so you can see it does not pay wages the best they can do.

A word to the people of Washington county, with whom we are but little acquainted, but they are all well known to Courtney Meek. Meek told us at the Occidental Hotel that he had a claim on Eagle creek that would prospect \$5 to \$15 to the pan. Now we will tell what Dave and J. Clark told us: When Meek left the mines he was in with some other men in a whip-sawing business, and sold out to his partners, but did not have money enough to come out with, and got Dave Clark to go to a man in the Widow's claim and buy him \$26 worth of specimens to raise a big excitement among the boys in Washington county.

Without exception, it is the most outrageous excitement that has been for many a year, and is bound to ruin many a man. Gentlemen, take our advice and stay away from the mines. If you go to any station or town along the road and express an opinion that you intend to write to the papers and stop your friends from coming, they will almost jump you for a fight in a minute. These are facts, and we don't ask anybody to take our advice, but come along and see; and if any one says that we have not told the truth after he comes and sees for himself, as we have done, he can call us a set of liars. But there are hundreds in the mines to-day who express themselves as we do. We don't offer our advice to any one except our friends, and to them we say: Stay at home, and don't be foolish, as we were, to believe every lie you hear, because there nine lies to every truth in regard to the Cour d'Alene mines.

Yours respectfully,  
A. SUNDERLAND,  
S. SEELYE,  
MAT. WHITE.

SAVING FINE GOLD.—The Admiral Sentinel understands that V. Yelmini, at the Onaida mine, has discovered a process by which the fine float gold may be saved in placer and gravel mines. By this process, it is said, that mines which heretofore would only pay about twenty-five cents to the hand will now pay from \$4 to \$5. He intends to patent his invention, and then we may expect a revival in placer mining in this vicinity. Under this process Mr. Yelmini is successfully operating his mine in Onaida Valley.

Our laws, national and local, are so liberal and our provisions so generous for the care of poor immigrants arriving in this country, that many of the towns of Europe ship to us their paupers, their decrepit persons, their idiots and their helpless invalids. These become a burden upon the public charitable institutions of the communities where they land or upon the benevolent societies of our adopted citizens, to whose nationality they happen to belong, who have earnestly protested against their coming.

The following stock has been struck off the San Francisco Stock Board list for non-payment of annual dues: Sutro, North Sierra Nevada, North Extension, Utah, Trojan, Metallic-Equator Con., Endowment, Wales Con., Betchel, Tip Top, Double Standard, Brass Wire, and Pinal Con.

**The Expert Specialist.**  
DR. ALLEN, as is well known, is a regular  
graduated Physician, educated at Bowdoin Col-  
lege and University of Michigan. He has de-  
voted a lifetime to the study of the treatment  
and cure of diseases within his specialty.

**TOUING MEN**  
And Middle-aged Men, who are suffering from  
the effects of youthful indiscretions or excesses  
in mature years, Nervous and Physical De-  
bility, Impotence, Lost Manhood, confusion of  
ideas, dull eyes, aversion to society, despond-  
ency, pimples on the face, loss of energy and  
memory, frequency of urinating, etc. Remem-  
ber, that by a combination of remedies of great  
curative power, the Doctor has so arranged his  
treatment that it will not only afford immediate  
relief but permanent cure.

**My Hospital Experience**  
(Having been surgeon in charge of two leading  
hospitals) enables me to treat all private trou-  
bles with excellent results. I wish to distinctly  
understand that I do not claim to perform im-  
possibilities, or to have miraculous or super-  
natural power. I claim only to be a skillful  
and successful Physician and Surgeon, thor-  
oughly informed in my specialty.

**Diseases of Man.**  
All applying to me will receive my honest  
opinion of their complaints—no experimenting;  
I will guarantee a positive cure in every case;  
undertake, or forfeit \$1,000. Consultation in  
office or by letter free and strictly private.  
Charges reasonable. Thorough examination,  
including chemical and microscopic analysis of  
urine and advice, \$3. Call or address

**NOTICE TO CO-OWNERS**  
To Jacob Bauer, owner in the Miners'  
Delight mine, situated in Jackrabbit Mining  
District, Lincoln county, State of Nevada.—You  
are hereby notified that there is due from you  
the sum of One Hundred and Twenty (\$120.)  
Dollars as part assessment for two years on  
your interest in the above named mine, which  
you are hereby notified to pay immedi-  
ately together with the cost of this advertise-  
ment. Otherwise I shall claim forfeiture of  
your interest, in conformity with the acts of  
Congress under the revised statutes of the U. S.  
Mining Laws, approved May 10, 1872. All per-  
sons are hereby cautioned against purchasing  
the said interest of the said Jacob Bauer, as he  
cannot, under existing circumstances, make a  
legal transfer. **HENRY DERO.**  
Eristol, Nevada, January 8, 1884. **112-3m.**

**NOTICE.**  
To W. R. Wilson, owner in the Volcano  
Mine, situated in Jackrabbit Mining District,  
Lincoln county, State of Nevada, you are hereby  
notified that there is due from you the sum of  
two hundred (\$200) dollars on your interest in  
the above named mine, which you are hereby  
notified to pay immediately, together with the  
cost of this advertisement, otherwise I shall  
claim forfeiture of your interest, in conformity  
with the acts of Congress (Sec. 8), approved  
May 10th, 1872. All persons are cautioned  
against purchasing the said interest from the  
said W. R. Wilson, as he cannot under existing  
circumstances make a legal transfer.  
Royal City, Nevada, January 6, 1884.
